

Character Verification Registration Process

This document provides a step-by-step for the Chandigarh Police Integrated Citizen & Police Management System

Step 1: User Registration

A new user creates an account by entering Email ID, Mobile Number, New Password, Confirm Password and CAPTCHA. After filling the details, the user clicks 'Send OTP' to verify the registered mobile number.

Step 2: User Login

After registration, the user logs in using either OTP or Username & Password. The login page also provides Register, Reset Password and Return to Home options.

Step 3: Enter Personal Details

Enter the applicant's personal details including Name, Father's Name, Date of Birth, Gender, Mobile Number, Email ID, Residential Address, State, District and Police Station. Click Next after completing all mandatory fields.

Step 4: Character Verification Details

Provide the Present Address, Previous Address (if applicable) and Permanent Address along with the duration of stay. Verify the information and proceed.

Step 5: Verification & Referee Details

Enter the verification details and referee information including name, mobile number and address before proceeding.

Step 6: Upload Documents

Upload all mandatory supporting documents in the prescribed format. Select the required document type and ensure all uploads are completed successfully.

Step 7: Request Registration

After submission, the system displays a success message and generates a unique Application Number. Save this number for future tracking..

Overall Workflow

- Fill Personal Details
- Enter Address Details
- Provide Verification & Referee Details
- Upload Required Documents
- Submit Application
- Save Generated Application Number
